Mathematical Sciences

# 2009/2010 CSC/PIMS Distinguished Speaker Series in Applied and Computational Mathematics at Simon Fraser University

The 2009/2010 CSC/PIMS Distinguished Speakers are:

November 20, 2009, 2:30 PM

**Dr. Richard D. James (Minnesota)**

*Viscometry of Bulk Materials and Atomic Structures*

March 15, 2010, 2:30 PM

**Dr. Jack Xin (UC Irvine)**

*Blind Source Separation Methods and Applications*

April 9, 2010, 2:30 PM

**Dr. Michael Unser (Ecole Polytechnique Federale de Lausanne)**

*Ten Good Reasons for using Splines for Signal/Image Processing*

May 14, 2010, 2:30 PM

**Dr. Iain Couzin (Princeton)**

*Collective Motion and Decision-Making in Animal Groups*

All talks will take place in SFU IRMACS ASB10900.

The series is co-sponsored by:

The Centre for Scientific Computing at SFU

The Pacific Institute for the Mathematical Sciences

Interdisciplinary Research in Mathematical and Computational Sciences at SFU
